### ANOTHER ORGAN.

## A Fifth Newspaper Makes Its Appearance in Carson.

Yesterday morning the APPEAL reporter noticed a large watering cart being driven up Main street by a small boy. The cart had the advertisement of Hofer Bros. painted on the sides, back and front in red and black letters. The reporter hailed the boy.

"New paper?"  
"You bet," answered the boy.

"What do you charge for these big advertisements?"

"Ain't at liberty to tell the figures, but they come high."

"Take all kinds of ads?"

"Yes, you bet; all except printin' city ordinances for nothing. We ain't on no free charity lay."

"Not running the cart for your health?"

"No sir; nor anybody else's."

"What do you call your paper?"

"The Daily Water Spout; round all day, and everybody can read it."

If business is good I shall paint local items on a big cloth and hang the cloth over the tail board. I'd take telegraph dispatches if they didn't cost so like the deuce. What this town needs is a live, enterprising sheet like mine, to go up and down the streets all day and keep remindin' the public that it is on deck. These old Carson dailies are too slow for the town."

"Do you edit this sheet?"

"Yes, I run the whole business and turn on the water at the same time. The thing's no good till I work the lever."

"I'm runnin' the concern this month on the Hofer Bros. subsidy, and if anybody wants to cave me down the bank next month I'm here. Hate like the deuce to interfere with the business of old established newspapers, but we must all live."

"What's the politics of this organ?"

"Don't know just now; waitin' to hear from a few parties. Git up you lazy old plug."

### Wintering Horses.

It is strange how a horse stands the Nevada Winters. There is no other place in the world where horses will go through a hard Winter in such good shape and be strong in the Spring. Last Fall the writer turned an old sway-backed mare out to forage in the hills. It came back the other day with a fine growth of wool on its back, and looking all right.

The wool was curried off and saved to stuff a mattress, and the old plug was hitched up to a wagon. Inside of five seconds or so she had kicked the dashboard and thills up on top of the barn, and carried the running gear to the North Carson dump. She is still at large.

All this goes to show that a hard, unfeeling Winter does not take the life and ginger out of a Nevada raised horse. The wagon went to pieces because it was manufactured in California. A Nevada raised wagon would have stood the trip. The horse was twenty-eight years old.

### The School Exhibition.

Tonight the school children will give their exhibition at the Opera House. It will be a pleasant affair and everybody should make it a point to go. There will be a scene from Prince Methusalem and several other pleasant and original novelties.

The following is the programme:

"The Sailor's Chorus."

2—Calisthenics by Miss Martin's class.

3—Cantata; "Little Bo Beep."

1st act.

4—Calisthenics by Miss Wasson's class.

5—Balcony scene from Prince Methusalem.

6—Overture by the boys.

7—2nd act of Cantata.

8—Calisthenics by Miss Bardenwerper's class.

9—3rd act of Cantata.

—The Red Canyon Mines are looking better than ever.

### A MYSTERIOUS BUSINESS.

## But Banks are not Run Like Mines.

Whenever we pick up a paper we see articles about the cunning tricks and mysterious movements of men who are managing big Comstock mines. The articles read about like this: Last evening Col. Briggs the Superintendent of the Gold Bass mine arrived from the Bay. When interviewed by the stockholders of the mine on the prospect of the West drift, he merely drew down his left eyelid and said they would know more about it in a few weeks. The President of the mine arrived last night and Billy Brown the heavy stock manipulator was closeted with the two last night at the residence of the Superintendent.

These three are the shrewdest manipulators on the ledge and know the mines enough not to give any dead things away. The mine has been closed to visitors and the mysterious movements now on foot show that something is in the wind and the boys about town were pretty heavy buyers this morning.

Now suppose the management of a big bank should be conducted on the same basis of management as a mine. How would an item like this read:

Yesterday Joseph Price, cashier of the Loan and Savings Bank, arrived from below. When asked by some of the stockholders as to the condition of the bank, he winked his left eye significantly and sauntered off whistling. "For goodness sake don't say I told you."

Last evening, the President of the Bank, along with the Cashier and Jimmy Snatchem, the famous safe manipulator had a secret conference, but as these men know how to keep closed mouths, nobody is on. The safe has been closed up and the combination lock turned on. None of the stockholders are admitted. These men are old hands at the banking business and can work the racket slick. Meanwhile these mysterious movements are very interesting to our citizens and while the air is full of vague rumors, nobody seems to be on the inside, but those who have a few dollars to spare are buying stock in the Loan and Savings Bank, confident of realizing a big thing.

Now will the reader lay these items side by side and figure out if one is a whit more absurd than the other. Why will men put their hard earnings into a mining business that they are never allowed to inspect (although they are partners in the business) and yet draw every dollar of deposits out of a bank when they see the Cashier on a drunk.

### The Agricultural Directors.

Yesterday, Governor Stevenson appointed the following named gentlemen Directors of the District Agricultural Society No. 1, Ormsby county: H. G. Parker, C. N. Noteware, Evan Williams, D. A. Bender, S. L. Lee, J. D. Kersey, D. Circe and Jacob Topriner. Ormsby District proposes to have a Fair here this year that will almost equal the State Fair.

### Warren's Election.

Last Saturday night Warren Engine Company No. 1, elected the following officers: Geo. W. Chedic, President, W. H. Cowan, Secretary, D. G. Kitzmeyer, Treasurer, John Trapp, Foreman; E. C. Vonderhyde, First Assistant; W. H. Cowan, Second Assistant; F. T. Brady, Steward.

### To The Ruptured.

Dr. Chas. W. Porterfield, the hernia specialist of Sacramento, will remain in the city a week or ten days to treat ruptures by a new process by which he dispenses entirely with the truss. He has been very successful in Virginia City and elsewhere. He is now located at the Arlington.

### Art Lovers Attention.

J. B. Monaco, the artist, will leave Carson about the middle of May. Those wishing to have a good crayon or oil portrait made will do well to give their order at once. Studio at Marston's Photograph Gallery. a22 1m

### The Annual Camp-fire.

The annual camp-fire and dance of the G. A. R., will take place at the Opera House on Friday evening, May 13. The W. R. C. are taking an active hand and it will doubtless be one of the largest attended affairs of the year.
